## STATE W.C.T.U. CONVENTION

Began Three Day Session Tues-  
day Afternoon—Papers  
Presented.

### DEAF AND BLIND SCHOOL.

Opened This Morning for Year's Work  
—Wedding Permits—Unwholesome  
Fruit Cause of Contagion.

OGDEN, Sept. 29.—The nineteenth  
annual state convention of the Wom-  
an's Christian Temperance Union be-  
gan a three-day session yesterday af-  
ternoon, with President Lulu B. Sher-  
pherd in the chair. There were about  
40 delegates in attendance. After the  
meeting had been called to order Mrs.  
Shepherd, the state president, deliv-  
ered an address, reviewing briefly the  
work which the union had accomplished  
during the past year.

From the reports submitted by the  
president and others, the work of the  
W. C. T. U. is spreading over the en-  
tire state. Seven new unions have been  
organized this year, four of which be-  
gan their organization in Utah county  
last week following a visit from  
President Shepherd. The membership  
rolls show that 300 names have been  
added during the past year. All of the  
delegates who are present are furnished  
with handsome badges, and the church  
in which the exercises are being held is  
profusely decorated with the banners  
of the union.

Owing to the absence of all of the  
local presidents, except Miss L. Frost,  
Bryham; Miss Freda Dressel, Ogden;  
and Mrs. C. A. Walker of Salt Lake, the  
reports from other unions could not be  
read yesterday. The balance of the pro-  
gram for the day was carried out,  
however, with but little change.

The program last evening included an  
address by Joseph S. Perry on the ques-  
tion, "Do Saloons Build Up a Town?"

The leading subjects discussed this  
forenoon were: "Esquaintance for W. C.  
T. U. Work," by Mrs. F. C. Jensen of  
Mt. Pleasant; "Mothers' Clubs," by  
Mrs. William Craig, Ogden. Following  
is the program this afternoon:

"Why Have a Local Temperance  
League?" Mrs. E. P. Sherman, Green  
River; Miss Hazel Hart, Tremonton;  
"The Part of Temperance Literature,"  
Mrs. R. T. Miller, Springville; Mrs. F.  
E. Cook, Tremonton; "Alcohol in Medi-  
cine Unnecessary," Mrs. W. H. Smith,  
Salt Lake City; "The Onward March of  
Prohibition," members of Ogden union.

Following this last paper, an adjourn-  
ment will be taken for a trolley ride to  
the canyon and picnic supper.

### DEAF AND BLIND SCHOOL.

OGDEN, Sept. 29.—The State School  
for the Deaf and Blind was opened to-  
day for the year's work with a large  
attendance. Superintendent F. M. Briggs thinks  
that the total enrollment will be nearly  
120 pupils, which will include those re-  
siding from Arizona, Nevada, Colorado, Wy-  
oming and Idaho. The larger number  
of pupils, however, are from the various  
cities and towns of Utah.

### WEDDING PERMITS.

OGDEN, Sept. 29.—Licenses to marry  
were issued by the county clerk to the  
following:

Castle H. Murphy and Verna A.  
Fowler, both of Ogden; Adrianus Bak-  
ker and Gerarda Kanning, both of  
Ogden.

### FRUIT BLAMED FOR CONTAGION.

OGDEN, Sept. 29.—Samples of water  
throughout the county will be sent to  
State Chemist Herman Harms to as-  
certain if they are free from typhoid  
germs. City water has been found to  
be pure. The health department lays  
the blame for what contagion there is  
in the city to unwholesome fruit.  
Overripe fruit and fruit on which dirt  
is allowed to accumulate is believed  
to have bred typhoid germs.

### AUGUST CHAMOT DEAD.

San Francisco, Sept. 29.—August

army during the Boer war. He was

## BUSINESS BEFORE UTAH COUNTY BOARD

Commissioners Decide They Cannot  
Locally Add to State Fish  
Hatchery.

(Special Correspondence.)  
PROVO, Sept. 29.—The board of county  
commissioners yesterday decided  
that it had no authority to contribute  
money to the state fish hatchery now  
being established near Springville. Deputy  
Fish and Game Warden Madsen  
asked the county to appropriate \$1,000  
to be used to enlarge the capacity of  
the plant, with the understanding that  
the increased output of trout fish, which  
would result from the enlarged plant,  
would be planted in Utah lake. The  
commissioners were desirous of making  
this arrangement, believing as do  
all who have given the subject any con-  
sideration that it would prove a very  
profitable investment for the county;  
but as the board was advised by  
County Attorney H. H. Hays, that such an  
appropriation could not be legally  
made, it was reluctantly decided not  
to make it. J. L. Lytle, engineer in  
charge of the Strawberry valley reclama-  
tion work, was granted, in behalf  
of the United States reclamation ser-  
vice, a franchise to construct an electric  
pole line from Spanish Fork canyon to  
Spanish Fork.

The Knight Investment company asked  
for a franchise to construct a pole  
line along the county road from its  
electric plant in Santaquin canyon to  
Tintic. The matter was referred to  
Commissioner Lewis to be reported on  
at the next meeting.

(Special Correspondence.)  
GRANTSVILLE, Tooele Co., Sept. 28.—  
Levi Bechtell of this place met with  
a fatal accident while working in the  
skid valley last Saturday, where he was herding sheep.  
During the afternoon he rode horse-  
back down to the Kanaka ranch to

as he arrived he was thrown from his  
manageable and threw him violently  
to the ground. He was put in a con-  
veyance and brought home to Grant-  
sville by one of the natives traveling

district wards were satisfactory. A  
change in the bishopric of the Lake  
Point (E. T. City) ward was made as  
the present bishop, Samuel Paget, in-  
tends moving away. James A. Bates

## HUSBAND WHO AX THREATENS TO KILL

Mrs. Annie B. Bird Brings Suit for  
Divorce Against Her Hot-  
Tempered Spouse.

Charging her husband, William H.  
Bird, with chasing her with knives,  
axes and shovels and threatening to  
kill her, Mrs. Annie B. Bird brought  
suit yesterday in the Third district  
court to obtain a divorce. Mrs. Bird  
asks for the custody of their six chil-  
dren and their homestead. They were  
married here on May 6, 1880. For some  
time they have had trouble, she says.  
On Aug. 10, he drew a knife and chased  
her out of the house, the complaint al-  
leges. The following day he seized an  
axe and shovels and she and her chil-  
dren were compelled to leave the house  
to escape injury.

Mrs. Jessie M. Freeland made applica-  
tion yesterday in the Third district  
court for a divorce from E. P. Freeland  
on the ground of non-support. They  
were married in Ames, Iowa, on Dec.  
31, 1887. They have no children.

For two years Mrs. A. C. Cayley has  
supported herself and yesterday she  
applied in the district court for a  
divorce from Francis L. Cayley. She  
asks for the custody of her maiden  
name, Agnes Appel. They were mar-  
ried here on March 12, 1903, and have  
no children.

### BURTON TO FILE ANOTHER.

The denuncer filed by County At-  
torney Job P. Lyon to the answer to  
county commissioners in the suit to  
compel them to pay back to the county  
treasurer the \$3,727.50 illegally paid to  
the Interoceanic Republic for print-  
ing the delinquent tax list in 1908,  
will be argued before Judge George G.  
Armstrong a week from Saturday.  
Walter J. Burton, who filed the answer  
to the suit, chairman of the Finance  
committee of the board may file an amend-  
ed answer in his own behalf. Burton  
signed the voucher for the amount of  
the advertising, but the debt was con-  
tracted before he became a member.

### ONE MAN'S LOSS OTHER'S GAIN.

Barton Snare Learns Something About  
Beating Creditors.

The old adage that what is one man's  
loss is another man's gain was im-  
pressed upon A. C. Christensen, Jr.,  
yesterday, in a way that hurt. In an  
effort to evade judgment, Christensen  
turned over a team of horses, valued  
at \$250, to Barton A. Snare, and to  
show to his creditors his good faith  
in the transfer, gave Barton a bill of  
sale. Then when he wanted the team  
returned Snare paid on the bill of  
sale, and now Christensen still has the  
judgment standing against him and no  
team.

The story came out in the Third dis-  
trict court yesterday. In the case  
brought by Christensen against Snare  
to recover the team. It developed in  
the testimony that in order to defeat  
his creditors and prevent the seizure of  
the team under an execution, Christensen  
had turned the team over to Snare. The  
jury found in favor of Snare after the  
facts had been brought out, and he  
will keep the team.

### INSPECTOR GETS TIPS ON KETCHUP

Chief Food and Drug Man of the Bu-  
reau of Chemistry Here Ab-  
sorbing Information.

Chief Food and Drug Inspector  
Walter G. Campbell of the bureau of  
chemistry, department of agriculture,  
has arrived in town from the east,  
bringing with him William W. Paine,  
food and drug inspector in the same  
bureau, from the Boston office. Mr.  
Paine is a Harvard 1908 graduate,  
and has already quite a reputation in  
his new line of work. He will be left  
here to take the place of Inspector H.  
C. Kitchen, who has been promoted  
and transferred to the 5th office. These  
three officials were the guests, with  
Utah Food Inspector Willard Hansen  
in en route to Spokane and the Pacific  
coast cities to visit the station bureau  
there.

Mr. Hansen was anxious to meet Mr.  
Campbell to get his views on some of  
the workings of the new national law  
in the east. Mr. Hansen says he has  
found some of the Utah canning fac-  
tories using refuse scrap from tomatoes  
prepared for canning, for the manu-  
facture of ketchup. As it is known to be  
widely done down east without inter-  
ference from the government authori-  
ties, Mr. Hansen felt some hesitancy  
about taking radical action in prevent-  
ing the practice here until he had con-  
sulted with the national bureau. His  
talk with Mr. Campbell will largely  
guide him in the matter. This refuse  
includes specks and unsound sprouts  
and other imperfections in the tomato  
which must not go into the cans, but  
are considered all right by manufac-  
turers for ketchup. They may not be  
absolutely deleterious to health, but  
are not nice to have in mind when one  
reaches for a bottle of sauce. Judging  
from Mr. Hansen's expressions, it is  
fair to infer that Utah manufacturers  
will not be allowed hereafter to man-  
ufacture ketchup except from the simon  
pure, perfect tomato. Manufacturers  
say "the honest farmer" is largely  
responsible, as he persists in unloading  
all kinds of stuff on the canning  
factories, and if there is a complaint,  
merely hauls off his goods to some  
other canning factory where they are  
not so particular. However, Mr. Han-  
son has a little scheme which he be-  
lieves will checkmate this move. It is  
for the canner to accept the consign-  
ment and deduct from the payment  
all unsound tomatoes found in the lot.  
Then when the grower protests, the  
state will step in and back up the  
canner—allowing the grower to make  
any agricultural belligerency that may  
be exhibited.

ment and deduct from the payment  
all unsound tomatoes found in the lot.  
Then when the grower protests, the  
state will step in and back up the  
canner—allowing the grower to make  
any agricultural belligerency that may  
be exhibited."

### WHY DRUGGISTS RECOMMEND CHAMBERLAIN'S COLIC, CHOL- ERA AND DIARRHOEA REMEDY

Mr. Frank C. Chapman, a prominent  
druggist of Portsmouth, Va., says: "For  
six years I have sold and recom-  
mended Chamberlain's Colic, Cholera  
and Diarrhoea Remedy. It is a great  
remedy and one of the best patent  
medicines on the market. I handle some  
others for the same purpose, but I am  
responsible, as he persists in unloading  
all kinds of stuff on the canning  
factories, and if there is a complaint,  
merely hauls off his goods to some  
other canning factory where they are  
not so particular. However, Mr. Han-  
son has a little scheme which he be-  
lieves will checkmate this move. It is  
for the canner to accept the consign-  
ment and deduct from the payment  
all unsound tomatoes found in the lot.

state will step in and back up the
